DATA ANALYSIS | DATA SCIENCE | AI DEVELOPMENT

PROFILE

Third-year BSc Artificial Intelligence student with hands-on experience building Python-based projects across data analysis, machine learning and AI applications. Comfortable working with Python, SQL, Excel, pandas and NumPy, and developing web applications with Flask, APIs and databases. Project work includes an AI resume matcher, a machine-learning scam prediction project and client websites.

EDUCATION

The British College — Kathmandu, Nepal — Expected 2027
BSc in Artificial Intelligence | Third-year student

TECHNICAL SKILLS

Programming: Python
Data: SQL, Excel, pandas, NumPy
AI & Machine Learning: Machine learning, LLMs, RAG
Development: Flask, APIs, database management
Creative tools: Flow, ChatGPT, CapCut, DaVinci Resolve
Other: Problem-solving, AI-assisted content creation

PROJECTS

AI-Powered Resume Matcher
Built an application that uses AI to compare resumes with role requirements and support candidate matching.

Scam Prediction Using Machine Learning
Developed a machine-learning project focused on identifying and predicting potential scams.

Hotel and Lawyer Websites
Designed and developed websites for a hotel project and a lawyer client.

FREELANCE EXPERIENCE

Social Media Handler & Content Creator
Managed social media content for freelance clients and a social media page. Used Flow and ChatGPT to assist with content ideas and creation.

Part-Time Video Editor
Edited video content using CapCut and DaVinci Resolve.
